BRINLEY MACNAMARA

SOFTWARE ENGINEER

PROFILE

Recently finished CS degree program at Tufts, starting career in software engineering. Areas of interest include security, ui/ux design, and web development.

CONTACT

45 Moody Street, Unit 207
Waltham, MA, 02453

P : (617)-780-1409

M : brinley.macnamara@gmail.com

PROJECTS

Multi-player puzzle game

Worked on level design and back-end dev using Unity

Distributed back-up service

Wrote peer-to-peer file back-up service in Erlang, which handles uploading and downloading files

EXPERIENCE

Network Technology and Security Intern
Mitre / Bedford, MA / Summer 2018

Developed browser extension using Python and Javascript; participated in Capture the Flag competition (secured video game console and exploited vulnerabilities in other teams' designs)

Cyber Security Intern
State Street / Quincy, MA / Summer 2017

Employed Python and MySQL to develop a web application to aggregate and analyze threat intelligence data; wrote Python script that employed Twitter's API to auto-post tweets from popular threat intel feeds to Confluence; helped automate password audit using Python and Bash

Teaching Assistant
Tufts / Medford, MA / Summer 2017

Assisted students with introductory C++ projects; tutored students in foundational CS concepts in office hours; graded homework
